Hospital navigators

Our Leukaemia Care navigators are available in specific hospitals for advice, support, or simply a friendly chat. Based in hospitals across the UK, the hubs bring our services directly to you, so you can get help when and where you need it most.

What is a Leukaemia Care Navigator

A Leukaemia Care Navigator can:

- Provide emotional and practical support.
- Liaise with consultants, nurses, and other healthcare professionals.
- Signpost you to other services offered by Leukaemia Care.
- Make sure you feel supported at every stage of your diagnosis and treatment.

Whether you need information, reassurance, or just someone to listen, our Navigators are there for you.
