Leave a virtual dedication

Remember your loved one on our Memory Wall. Share a fond memory and favourite photo.

A personal tribute

This page gives you a space to add a photo and a few words in memory of your loved one, whether it's a short tribute, a favourite memory, or something that captures what they meant to you.

You can:

- Upload a photo
- Write a message of love, memory, or reflection
- Share a few words that feel right for you

There's no right or wrong way to do this. Some people choose a simple message of love, others share a short story or a line that meant a lot to them.

Once created, your dedication becomes a lasting tribute you can revisit, and others can see when you choose to share the link. It's a way to honour someone's life in your own words.

If you wish, you can include an **optional donation** as part of your dedication. This gives people another way to show their support while remembering someone special. There is **no obligation to donate**.

Creating a dedication is quick, easy, and yours to personalise.
